MEMORANDUM FOR: Colonel White

1. Attached is a revised draft of Regulation No. [REDACTED] "Civil Service Retirement." You will recall that several months ago a draft of this Regulation had been forwarded to the DDCI for approval. The DDCI raised numerous questions, most of which related to material over which this Agency has no discretion. The DDCI questioned provisions made mandatory by the Civil Service Retirement Act or instructions contained in the regulations of the Civil Service Commission.

2. The Personnel Office reviewed the inquiries made by General Cabell and prepared a memorandum to comment on each of these questions. Through its further study the Personnel Office was able to provide some refinement to the original draft, and it is recommended that the new draft be approved.

3. I believe that the draft of [REDACTED] which is now recommended for your signature, is correct. I have very closely scrutinized it and have had some changes made to improve accuracy. For example, George Meloon's memorandum (which comments on General Cabell's inquiries) contained the statement that disability retirement payments are discontinued (in the case of persons who are reemployed by the Federal Government after their recovery) on the last day of the month of reemployment. This is incorrect, since it should be the last day of the month preceding reemployment. Necessary changes to reflect this were made within the body of the Regulation.

4. [REDACTED] "Civil Service Retirement -Special Processing as Required by Security Considerations" is also attached. You have already approved this Regulation, and General Cabell evidently did not take any exception to it but merely returned this Regulation with [REDACTED]

5. I do not believe that it will be necessary to return these Regulations to General Cabell for his approval, since over ninety per cent of the material contained therein merely reflects the Civil Service Retirement Act or pertinent chapters from the Federal Personnel Manual. (Therefore the amount of "policy" peculiar to CIA which is stated in [REDACTED] is of minimum volume).
